My classmates can trust me and can share their problems with me, I'll definitely help them. I'll try my best not to disappoint my teachers and classmates.

Harshita kumari	Girl Monitor	<p>It develops leadership qualities inside us. We tend to learn many things and also feel responsible. This also teaches us to be cooperative and have adjustable nature and behaviour. So I want to be the class monitor due to all these and also I want to help everyone and create a bond between all of us as friends. So no one can feel mistreated and felt alone as there are many new students.</p> <p>Thank you.</p>
Keshar Mishra	Girl Monitor	<p>A class monitor is the one who takes the responsibility of the entire class. I am really interested in becoming a class monitor. But, my confidence level is so low that it always pulls me down. So, being a class monitor will make me confident and much more responsible. It will help me gain experience.</p> <p>I shall keep the teachers informed about everything. If anything happens against the interest of the class, will be reported to the class teacher.</p> <p>The best part of being the monitor is to become able to scold my class mates (But this cannot happen due to online classes) I would scold them for talking in between the classes.</p> <p>I'll be enjoying motivating people in this tough time.</p>
